

Dear General Manager,

Did you know Domino's Pizza has several programs designed specifically to cater to the needs of hotels and their guests? Our programs can provide your business with increased profits, staff rewards and supply needs. We take care of everything!

We provide guests with hot, fresh delicious pizza served fast. Domino's Pizza prides itself on being the *Pizza Delivery Experts* and is dedicated to maintaining our reputation as having the highest quality pizza with efficient, friendly staff. This enables us to serve hotels and its guests better than any of our competition. We know how important your business is to continually building awareness of our company. For that reason, we have created these programs that benefit your hotel. In turn, Domino's Pizza takes pride in being able to create relationships with quality hotels such as yours.

One of these programs is our Driver Sign-in Program. Every time a pizza is delivered to a guest at your hotel, simply have the driver sign our form (provided in this packet) at the front desk and after 10 signatures you can redeem it for a free one-topping pizza from the store nearest you.

The other is our Key Card Program. Key Cards are provided free of charge to you by Plasticard-Locktech International with our Domino's branding and phone number of the store nearest you on the card. We will continue to send Key Cards when you need them. Simply reorder more cards as needed and we will even pay for shipping! Feel free to contact me with any questions. To sign up or to order more cards call PLI: 1-800-752-1017

Sincerely,

Scott Hunley
